# GENERAL INFORMATION

The company NS Eastern Global was founded as a supplier of equipment and materials for HVAC and VC systems. Since that time the company has achieved market leadership in this industry.

The life of NS Eastern Global companies is constantly upgrading. We are closely monitoring the relevance of our assortment and we are looking for new partners to meet the needs of our clients. Based on its own storage facilities and on developed supply chain management system, NS Eastern Global company is ready to provide a wide product range with substantial stock and to guarantee timely delivery for a constantly growing and loyal customer base.

Highly qualified engineering team, which constantly improves their knowledge is ready to offer optimum solutions both for private houses and for industrial enterprises.

Creating favorable conditions for our clients, establishing long-term partnerships, continuous service and quality service improving are the principles on which we build the development of our company. When object configuration, we choose manufacturers only by quality of the products. We have successfully installed and set up a large number of different equipment on many project sites. Among them were the model sites (shopping centers, office buildings, hotels, residential complexes, car dealerships, etc.), as well as sites characterized by a narrow specification (oil installations, hospitals, pharmaceutical complexes, manufacturing facilities, etc.). So, we have emphasized the professional competence and a high rating of our company.

As HVAC and VC are the main systems of buildings, we decided to provide you with a personal manager who will be glad to guide you through all the details of our services:

- Comprehensive consultation on the technical characteristics of the goods, assistance in choosing equipment;
  - Wide range of equipment
  - Rapid processing of incoming orders
  - Flexible system of discounts and individual approach to each client
  - Strict adherence to delivery dates
  - Coordination of delivery
- Service (start-adjusting, warranty and post-warranty service)
- Designing of engineering systems
- Information support (certificates, catalogues, brochures, promotional materials)

Our company is a constant participant of specialized exhibitions of HVAC and VC, where we will always be glad to see you!

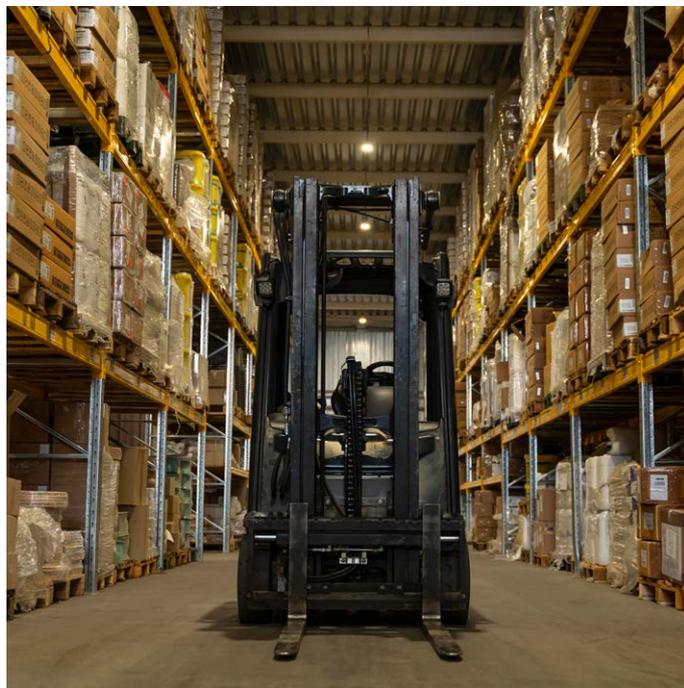

## CONSULTATION, EQUIPMENT SOURCING AND DELIVERY

NS Eastern Global company's specialists will provide you with comprehensive consultation on HVAC and VC equipment and material sourcing. Innovative developments of our company, the experience of our professionals and modern logistical support allows us to put into practice the best solutions that meet the needs of the most demanding customers.

Thanks to the simultaneous work of the highly qualified personnel and all the departments of the company, and also to own vehicle fleet and experienced drivers, your order will be delivered within a specified time worldwide. Our company provides its customers with a flexible discount system on object configuration. When ordering a full cycle of works we give special conditions.

Our own warehouse with 5000 m<sup>2</sup> allows to always maintain the required stock of marketable equipment and materials.

We always have the ability to control the location of the goods thanks to the coordination of logistics.

Extensive experience in working with different types of products we offer, using a relevant calculation programs, constant updating of technical and commercial literature, close contact with representatives of our suppliers, periodical training of our specialists and staff development, long-lasting cooperation with leading logistics companies – all these points allow you to solve the tasks of equipment sourcing, consultation and supply of necessary equipment and materials quickly and efficiently.

Having in our staff specialists in automated management systems and high - quality measuring equipment, we carry out start-adjusting, and achieve results when equipment declining demonstrates 100% of its technical capacity.
